NEW SOUTH WALES
STATISTICAL REGISTER.
1928-29.

PREFACE.

THE six sectional parts of this volume have already been issued separately, and are now presented collectively, accompanied by a General Index covering the subjects treated. Every care has been taken to keep the work free from errors, but if any have escaped detection it would be deemed a favour if their nature were indicated.

The figures should be read in conjunction with the "Official Year Book of New South Wales."

The Government Statistician wishes to express his thanks to the Commonwealth Statistician, to the responsible officers of the various State and Commonwealth Departments, and to others, who have kindly supplied all desired information, often at considerable trouble.

Bureau of Statistics,
Sydney, 10th October, 1930.

NOTE.—The figures quoted for 1841 and subsequent years represent the population of New South Wales within its boundaries after the separation of Queensland. Victoria was separated from New South Wales on the 1st July, 1851, and Queensland on the 10th December, 1859. Th Federal Capital area of Yass-Canberra was transferred to the Commonwealth on 1st January, 1911.

Aborigines are included in the totals for the last six Censuses. The numbers included were 983 in 1871, 1,643 in 1881, 8,280 in 1891, 4,287 in 1901, 2,012 (of whom 10 were in the Federal Capital area) in 1911, and 1,597 (M. 923, F. 674) in 1921.

* The population of the Federal Capital area (997 males, 727 females, 1,724 persons) is excluded.

NOTE.—From the records of the 1861 Census, the ports at which ships were lying are not available, so that the shipping population of Sydney cannot be ascertained. The total shipping population was 1,910 males 1,842, females 68), and two-thirds of that number have been assumed to have been in Sydney Harbour, and are included above.

Aborigines are included in the totals for the last six censuses.

* The Suburbs in 1921 comprised 40 Municipalities and Ku-ring-gai Shire.

Section II.—VITAL STATISTICS.

NOTE.—From the beginning of 1927, deaths have been allocated to the locality in which the deceased permanently resided, when known, and births to the usual place of residence of the mother; consequently in this issue comparisons of these figures for any division cannot be made with those for years prior to 1927.

* The figures in this column represent births in institutions, but have been allocated to the Municipality in which the mother resided.

† The figures in this column represent births in institutions situated within the specified Municipalities, without allocation to the residence of the mother.

NOTE.—For the years 1924 to 1926 the number of *registrations* for each municipality is shown; while in 1927 and 1928 the figures represent children who were born to mothers whose *place of residence* was as shown in the first column.

Legislative Council.—A maximum number of members of the Legislative Council is not fixed by the Constitution Act. In December, 1929, the number of members was ninety-three. Members receive no allowance for expenses, but travel free over the Government railways and tramways in the State. The President of the Legislative Council receives a salary of £1,200 per annum, and the Chairman of Committees £700 per annum.

Legislative Assembly.—New South Wales is divided into ninety electorates (Act No. 12, 1926), each being represented by one member. The Legislative Assembly continues for three years from the day of the return of the writs of election unless dissolved by the Governor. Each member (except when holding an office of profit under the Crown as a Minister, Speaker, or Chairman of Committees) is entitled to receive the sum of £875 per annum until he resigns or his seat is vacated, or, where Parliament has been dissolved or has expired by effluxion of time, until the day appointed for taking the poll for the next general election (Parliamentary Allowance and Salaries Act, 1925), by way of reimbursement for expenses incurred in the discharge of Parliamentary duties. Members travel free over the Government railways and tramways in the State, and are provided with official stamped envelopes for the free transmission of correspondence through the post. The Speaker of the Legislative Assembly receives a salary of £1,675 per annum, and the Chairman of Committees £1,115 per annum.

* Unrecorded. † For Parliaments prior to the 16th, the figures represent Voters on the Roll, irrespective of the number of distinct electors; plural voting was abolished in 1894, and for Parliaments from the 16th to the 20th inclusive the figures represent Electors upon the Roll to whom Electors' Rights had been issued. Electors' Rights were not required at subsequent elections, and for Parliaments from the 21st to the 24th the figures represent Electors upon the Roll; the figures for the 25th, 26th, 27th, and 28th Parliaments indicate the number of Electors qualified to vote. ‡ Includes Second Ballot figures. § Not available.

* Junior Cadets are trained at schools only. † No particulars as to medical examination in respect of junior cadets for the years ended 30th June, 1925, and subsequent years, are available, it having been decided not to hold a separate examination for this period of training. Head teachers of schools are empowered, under amended Regulation, to grant exemption from the training in cases of unfitness or probable physical incapacity to perform the prescribed training. § The figures for 1929 embrace schools located within training areas only.

Defence Act, 1903–27 (*Commonwealth*).—This Act provides that all male inhabitants of Australia (except a few exempted by the Act) who have resided therein for six months, and are British subjects, and reside within 5 miles of a training centre, shall be liable to naval or military training, as follows:—(*a*) From 12 to 14 years of age, in the Junior Cadets; (*b*) from 14 to 18, in the Senior Cadets; (*c*) from 18 to 25, in the Citizen Force; and (*d*) from 25 to 26, in the Citizen Force. For the present, however, training is limited as follows:—

(a) Junior Cadets—training in abeyance from 1st July, 1922, but was resumed on 1st July, 1924
(b) Senior Cadets—training limited to one year. This training commences on 1st July, of the year in which Senior Cadets reach the age of 17 years.
(c) Citizen Forces—training limited to three years. This training commences on 1st July of the year in which trainees reach the age of 18 years.

Notwithstanding these limitations persons liable to be trained under Part XII of the Defence Act are still required to register themselves for training during the months of January and February of the year in which they reach the age of 14 years.

The Royal Military College of Australia is situated at Duntroon, near Queanbeyan, and the Royal Australian Naval College at Jervis Bay.

No. 17.—Imports Oversea, 1928-29.

(From 1st July, 1928, to 30th June, 1929.)

NOTE.—With the exception of Great Britain and Northern Ireland, Irish Free State, and New Zealand, and in cases where a single country is concerned, only those countries are shown under each article where the value of import exceeds £500. Particulars in the following table refer to "Country of Origin"; details of country of direct shipment are not available.

Value of Imports.—The value of all goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem.*

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means "Not elsewhere included."

Import Duties.—Duties charged on Imports into New South Wales are collected under the Commonwealth of Australia Customs Act, 1921-1925; the Customs Tariff, 1921-1928; Customs Tariff (New Zealand Preference) 1922-1928.

Where reference has been made by footnote against any article in this table, fuller details may be obtained on reference to the Customs Statistical Classification.

Total Imports, Oversea, 1928-29, £63,491,123. **Gross Duty Received, £14,320,489.**

No. 18.—Exports Oversea, 1928-29.

Note.—With the exception of Great Britain and Northern Ireland, Irish Free State, and New Zealand, and in cases where a single country is concerned, only those countries are shown under each article where the value of the export exceeded £250.

The difference between the value of Australian produce exported and the total export represents the value of produce of oversea origin, re-exported.

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptation of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under this heading. The Commonwealth Customs Department does not now distinguish between the produce of New South Wales and that of other States, the whole being classified as "Australian."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages, without an indication of the number, capacity, or weight of the articles exported, only the values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 19.

No. 47—Harbour and Wharfage Rates, 1929.

Harbour and Wharfage Rates in the port of Sydney are collected by the Sydney Harbour Trust and in other ports by the Department of Navigation of New South Wales. Inward rates are payable in respect of goods brought by sea for landing, and outward rates on goods shipped on a vessel. Special inward rates are prescribed for certain articles produced and shipped within the Commonwealth, and the inward rates for other goods are those shown under the heading of General Rates. At ports other than Sydney separate schedules of rates apply to coastwise goods. In Sydney Harbour outward rates are not levied on any consignment under 2 tons. Goods transhipped are subject to transhipment rates, and not to inward or outward harbour or wharfage rates. Passengers' luggage is exempt.

NOTE.—Transhipment rates on coastwise goods at Ports other than Sydney are charged at half inward rates.

Storage Charges are imposed on goods left on a wharf beyond a prescribed time, unless the wharf is held under lease. The free period for inward goods in Sydney is six days after the final discharge of a vessel, at other ports it is two days. The rates per day in Sydney are 4d. per ton during first week, 5d. during second week, 6d. during third week, and 7d. thereafter. In other ports the rates are 2d., 3d., 4d., and 6d. respectively. The charges for storing timber after two days are at the rate per day of 1d. per ton during first four days; thereafter 3d. in Sydney and 2d. in other ports. At Newcastle the storage charge on wheat and wool after the first two days is 1d. per ton per day.

No. 20.—Annual and Total Loan Expenditure, 1842-1929.

(See Table 21.)

NOTE.—The difference between the actual Loan Expenditure stated below and the Public Debt, as shown in No. 22, and following tables, is due to the fact that the outstanding debt represents the gross amount sold, while the expenditure is the net amount after deducting discount and expenses of flotation and allowing for debit balance of Loan Account.

No. 21.—Distribution of Total Loan Expenditure to 30th June, 1929.

NOTE.—The total loan expenditure has no necessary relation to the public debt, although at times the amounts are approximately the same. The former is continually increasing according to the amount of loan moneys spent annually, while the public debt outstanding may be either reduced by the redemption of loans from revenue or increased by the issue of new loans, and may include large sums in hand.

No. 22.—Public Debt—Amount Authorised, Sold, Redeemed, and Outstanding, 1900–1929.

Note.—The difference between the amounts outstanding at the close of each year does not, as a rule, represent the actual increase or decrease in the Debt. Repayments of loans are generally effected under the head of renewals, and in following out this practice, it is usually found necessary to float the redeeming loan some time before the due date of the maturing loan; hence the liability appears twice in the Debt Statement till the bonds or stocks are retired.

Note.—Exclusive of payments of interest on account of Trust Funds and Special Deposits held by the Government and on Closer Settlement Debentures.

*Includes £4 0s. 5d. in respect of second column.

London Agents.—Operations connected with the issue and inscription of Stock are conducted by the Bank of England and the London and Westminster Bank. The former charges ½ per cent. per £100 Stock on all loan issues, and £350 per million annually for the inscription and management of Stock including the payment of the half-yearly dividends, while the latter charges ½ per cent. and £150 per million respectively for similar services.

Local Agents.—The Bank of New South Wales and the Commercial Banking Company of Sydney, Limited, transact all Government banking business. The former acts as Financial Agent for the State in Victoria, and also undertakes the payment of the half-yearly dividends on Local Debentures and Funded Stock. The Treasury however, in local loan issues, directly conducts the operations connected with the issue of New South Wales Funded Stock and Treasury Bills,

No. 25—Public Debt, 30th June, 1929—Annual Liability of the State for Redemption of Loans.

NOTE.—The latest due dates have been given in this table, but in some cases the loans are redeemable earlier, subject to the Government giving notice to that effect, at periods ranging from 3 to 12 months.

NOTE.—The State Debt and Sinking Fund Act (No. 19 of 1904) came into force on the 1st July, 1905, and provided for the appointment of four Commissioners, viz., the State Treasurer, the Chief Justice, the Speaker of the Legislative Assembly, and the Under Secretary to the Treasury. The Commissioners were empowered to purchase original stock; to enter the open market as an ordinary buyer, either in Sydney or London; and to act as an auxiliary to the Treasury in paying off matured loans. All descriptions of Government securities were dealt with. See note at foot of previous table.

* Information not supplied in all cases.

Amount of Consideration.—Many mortgages do not state the amount lent under them, and many discharges do not disclose the amount received in consideration. The figures representing "Amount of Consideration" under both these heads are therefore considerably less than the amounts actually advanced or repaid.

Sums secured by Lien on Wool and by Mortgage of Sheep.—When any sum has been secured, both by a lien on the wool and by a mortgage of the sheep, the amount is included under both heads.

In 1928 the gross amount lent on liens was £2,652,272 and in 1929, £2,695,679; but from these amounts has to be deducted the sum of £1,369,391 in 1928, and £1,191,693 in 1929, secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £1,282,881, and £1,503,986 in the respective years.

Mortgages on Wool and Crops discharged.—Liens on wool and on growing crops mature at the end of each season, and terminate without formal discharge. During 1928 there were 128 and in 1929 114 formal discharges of wool liens registered, representing £114,620 in 1928 and £158,728 in 1929.

NOTE.—Many mortgages of Stock come to an end without formal discharge.

Assurance Fund.—To provide compensation to persons who, through error, may have been deprived of their properties, an Assurance Fund has been created by a contribution of one half-penny in the pound levied on the declared capital value of land brought under the Real Property Act. On 10th September, 1906, the amount at credit of the Assurance Fund under the Real Property Act, viz. £255,058 14s. 1d. was transferred to the Closer Settlement Fund established by the Public Works and Closer Settlement Funds Act of 1906.

No. 86.—Number and Value of Estates of Deceased Persons, and Settlements, classified —year ended 30th June, 1929.

NOTE.—The rates of duty quoted were imposed under the Stamp Duties Act, 1920, which came into force on the 1st January, 1921. Half rates are charged if the property passes to the widow or to any children under 21 years of age, if the total net value of the estate is under £5,000.

‡Figures for 1927 latest available.

No. 92.—Municipalities—Valuations of Ratable Property for year ended 31st December, 1928.

NOTE.—In this table the *Unimproved Capital Value* is the amount which the fee-simple estate in such land is worth under such reasonable conditions as a *bonâ-fide* seller would require, assuming the actual improvements had not been made.

The *Improved Capital Value* is the amount which the fee-simple estate of the land is worth, with all improvements and buildings thereon.

The *Assessed Annual Value* is nine-tenths of the fair average rental of land with improvements thereon.

* Under the Fire Brigades Act of 1909, which came into operation on 1st January, 1910, the responsibilities of all the fire brigades in the State were transferred to the Board of Fire Commissioners of New South Wales. The revenue of the country fire brigades is derived from contributions from the Government, the municipal or shire councils interested in the respective fire districts, and the fire insurance companies insuring property within such districts, in the proportions of one-fourth, one-fourth and one-half respectively. This sum represents practically the expenditure for the year.

† Outside Fire Brigade area. ‡ There were in addition 34 chimney fires and 97 false alarms.

Religious Instruction.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools must be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology." Provision is made for authorised teachers of any denomination to give religious instruction at specified hours to the scholars belonging to their religion, and separate class rooms are provided generally for this purpose. The total number of visits paid to State schools during 1928 by authorised teachers was 111,181, namely :- Church of England 51,758; Roman Catholic, 3,482; Presbyterian, 18,297; Methodist, 24,133; other Denominations, 13,511.

Subsidised Schools.—Subsidies are granted only in the case of children resident in thinly-populated country districts, so far removed from any Public School that attendance is impracticable. The conditions are that where a private teacher is engaged by two or more families in combination, or by a single family with not less than four children of school age, such teacher, if approved by the Minister, may be paid subsidy as follows :—

"In the Eastern portion of the State at the rate of £5 per pupil per annum on the average monthly attendance, such aid not to exceed £50 yearly, and in the Western portion of the State, £6 per pupil per annum, not exceeding the sum of £60 yearly. The Western portion of the State shall be that portion within which living allowances are granted to Officers under the Public Service Board."

Subsidy may be paid also to a parent as an aid towards the boarding of the children with friends or relatives in a township for the purpose of attending a Public School, at the rate of 6d. per day in the Eastern Division of the State, for each full day's attendance, up to a maximum of £5 per child per annum, and at the rate of 7d. per day, up to a maximum of £6 per child per annum, in the Western Division of the State.

Superior Public Schools.—In addition to the above Superior Public (Day Continuation) Schools, established in 1912, composite courses were introduced into Country Schools in 1920 and have a definite aim. Course A leading to the Intermediate Certificate, Course B to the Commercial Superior Public School Certificate, while Course C qualifies pupils for the Public Service Entrance Examination.

These courses meet a distinct demand for the super-primary education of children attending schools in more or less sparsely-populated localities. The number of schools engaged in this work at the end of 1928 was 826, having an effective enrolment of 4,275 post-primary pupils, with an average attendance of 3,708.

Under its Charter, the University of Sydney may confer, after examination, degrees in Arts, Law, Medicine, Science, Engineering, Dentistry, Veterinary Science, Agriculture, Economics, and Architecture; but not in Theology and Divinity. Graduates of Sydney University rank equally with graduates of British Universities.

Under the Act of 1884 women have all University privileges; and degrees may be granted to women in all branches of knowledge.

Faculties.—There are now ten Faculties: Arts, Law, Medicine, Science, Engineering, Dentistry, Veterinary Science, Agriculture, Economics, and Architecture.

WAGES.

No. 85.—Rates of Wages in Various Industries, 31st December, 1929.

The Minimum Rates of Wages, as shown in the following tables, have been fixed by awards of the Court of Industrial Arbitration and of the Industrial Boards of New South Wales, or, in the case of a few industries, by awards or agreements under the Commonwealth Conciliation and Arbitration Acts. In relation to certain occupations which do not come within the scope of any industrial award, average rates have been stated.

The rates relate to the Metropolitan district except in the following cases:—The mining and shipping industries, agricultural and pastoral pursuits, and several important works situated in country districts, for which special awards have been made, viz., the Portland Cement Works, the Lithgow Iron Works, and the Newcastle Steel Works. The living wage in N.S.W. was declared on 7th September, 1923, at 82s. per week for men, and 41s. 6d. per week for women, and these rates prevailed until the 24th August, 1925, when the living wage was raised to 84s. per week for males, and 42s. 6d. per week for females. On the 15th December, 1926, the Industrial Commission declared a living wage of 84s. per week for males. On 27th June, 1927, the living wage was raised to 85s. per week for males, and 46s. per week for females. On 20th December, 1929, the living wage was reduced to 82/6 per week for males, and 44/6 for females. An Act to remove persons employed in rural industries from the operation of the Industrial Arbitration Acts was passed on 17th December, 1929.

Hours of Work.—The Forty-four Hours Week Act came into force on the 4th January, 1926, and the forty-four hour week is now in operation in practically all industries.

The number of working hours per week in the different industries at the 31st December, 1928, is shown in each case.

NATIONAL PARKS—The following parks are outside the Metropolitan area, but may be specially mentioned on account of their national character.—The National Park, 33,800 acres, at Port Hacking; Kurnell, Captain Cook's landing-place on Southern headland of Botany Bay, 248 acres; Kuring-gai Chase (part not included in Kuring-gai or Warringah Shires), 16,920 acres, on Hawkesbury River; Parramatta Park, 252 acres, at Parramatta; Lady Fuller's Park, 13½ acres, at Sublime Point.

TRUSTEES OF PARKS.—Under the Public Parks Act the Governor may appoint Trustees of any lands proclaimed for the purposes of public recreation, convenience, health, or enjoyment. The Trustees are empowered to frame by-laws for the protection of shrubs, trees, etc., upon the land vested in them, and regulate the use and enjoyment of such land by the public.

NOTE.—Particulars include estates administered by the Public Trustee.

Gross and Net Value of Estates.—The figures from the Probate Court and from the Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates and letters of administration on some estates being taken out a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

Courts of Marine Inquiry.—In respect of British ships, these Courts hear and determine inquiries as to wrecks and other shipping Casualties, or as to charges of incompetency or misconduct on the part of masters, mates, or engineers. Appeals and references under the Navigation Act (No 60, 1901) are also heard and determined. One or more District Court Judges constitute a Court of Marine Inquiry, and the Court is assisted by the assessors appointed under the said Act, but such assessors have power only to advise and not to adjudicate on any matter before the Court.

Appeals from Magistrates' Orders or Convictions.—The right to appeal to Quarter Sessions lies against all convictions or orders by Magistrates, excepting adjudications to imprisonment for failure to comply with an order for the payment of money, for the finding of sureties, for the entering into a recognizance, or for giving security, and orders for the payment of wages and convictions for breaches of discipline under the Seamen's Act, 1898. The Appeal Court re-hears the cases, deciding questions of fact as well as of law.

* Chairmen of Conciliation Committees are paid an annual salary fixed by the Minister. Members of Committees, other than the Chairman do not receive remuneration by way of salaries or fees, but all members are reimbursed fares and out-of-pocket expenses as approved by the Minister. (Industrial Arbitration (Amendment) Act, 1926, sec. 8 (1) and (6).)

† In addition 480 permits were granted by officers appointed by the Minister under section 27 (6) of the Industrial Arbitration Act, 1912, as amended.

Commonwealth System of Conciliation and Arbitration.—The Commonwealth Court of Conciliation and Arbitration exercises jurisdiction in relation to industrial disputes extending beyond the limits of any one State ; its awards are binding only on the parties to the disputes. Similar powers may be exercised by special tribunals appointed under the Industrial Peace Acts, 1920, for the prevention or settlement of industrial disputes. Registered industrial agreements have the force of awards. On 30th September, 1929, there were 89 awards and 42 agreements in force in New South Wales. The Public Service Arbitrator determines conditions of employment in the Public Services of the Commonwealth ; 39 determinations were in force in New South Wales as at 30th September, 1929.

Appeals.—The right of appeal may be exercised only in causes in which the amount claimed exceeds £10, and the appeal must be made either on points of law or in respect of the admission or rejection of evidence.

Causes tried by Jury.—In all actions where the amount claimed exceeds £20, the Judge may order, or the plaintiff or defendant may demand, that a Jury be summoned, by giving notice to the Registrar of the Court.

Number of District Courts.—At the end of the year 1928 there were 61 District Courts in the State, and 8 District Court Judges.

Garnishee Cases.—Upon the *ex parte* application of any creditor who has obtained a judgment, the Court may order that all debts due by a third person (the garnishee) to the defendant, except in the cases of wages or salary at £2 per week or under, shall be attached to meet the judgment debt; and, by a subsequent order, may direct the garnishee to pay as much of the amount owing by him as will be sufficient to satisfy the judgment debt. In cases where wages or salary exceed £2 per week an order may be made only for the amount of wages or salary in excess of that amount

* The above figures include prisoners received into gaol more than once, but do not include persons who were convicted and released direct from the Court. The number of distinct persons received under sentence was 6,846 males and 639 females; Total, 7,485.

† In addition to the 61 Habitual Criminals, there are 29 others declared, and who are included in the various sentences, as they have not yet completed their definite period. 22 males were declared Habitual Criminals in 1928-29.

Punishment inflicted on Prisoners for breaches of discipline.—During 1929, 1·5 per cent. of the prisoners received punishment, and the offences were generally of a trivial character. There have been no floggings, ironings, or other severe forms of punishment, and the dark cells were abolished years ago.

Gaol Libraries.—The Gaol Libraries contain 24,706 carefully-selected volumes for recreation and instruction of prisoners after working hours.

No. 49.—Prospecting Votes, 1919-29.

Prospecting Vote.—The sum of £7,000 was voted for prospecting for gold in 1878; and in subsequent years, at irregular intervals furthe small sums were voted and expended. In accordance with a resolution of Parliament, an amount has been voted each year since 1887, during which year it was confined to searching for gold. In the succeeding year the conditions were amended so as to embrace all minerals.

NOTE.—This table does not include iron made from scrap, valued, at 31st December, 1929, at £1,416,030; lime, valued at £1,595,699; Portland cement, valued at £17,347,488 and coke valued at £13,756,133, respectively. Emeralds and turquoises have been found in small quantities, but no information is obtainable as to their value.

These figures represent the value of minerals won during the year, and therefore differ from those in Tables Nos. 63 and 65, which show the value (at the mines, and before treatment) of the output from mines in operation during the year.

* Includes all quarries from 1925. Prior to 1925, only those held under mining title were included.

NOTE.—The great majority of females engaged in rural occupations are employed in conjunction with domestic duties, very few being returned as working for wages. Since 1919 a more careful collection has been made of the number of females engaged in rural pursuits, and it would appear that previously about 12,000 females were included each year (*e.g.*, wives of proprietors) who were engaged wholly in domestic duties.

NOTE.—The above prices for sheep represent the averages for all sheep, whether shorn or woolly, but as a general rule, in January and February the fat sheep at market are shorn; during March and April they have growing fleece; from May to August they are woolly and in September, October, November, and December they comprise both shorn and woolly.

Surrenders, Exchanges, and Road Resumptions.—Surrenders and exchanges are effected under Sections 195, 196, 197 of the Crown Lands Consolidation Act, 1913, and Road Resumptions are treated under the Public Roads Act, 1902. As land is exchanged for land without any monetary consideration the extent of the area of Crown Lands is not thereby affected.

Resumptions and Purchases.—The total alienations represent the gross area, no allowance being made for the gifts of land and the resumptions and direct purchases made from private owners on behalf of the various Departments, for particulars of which see Table No 84.

* Reduction in number of lessees is due to joint lessees transferring to individual lessees, farms being forfeited and surrendered, and conversions into freehold basis.

† Balance of area not occupied as farms comprises roads, channels, and other reserves, including permissive occupancy.

‡ Particulars for 1925 are exclusive of 1 farm of 25 a. 1r. 2 p. granted on a freehold basis; in 1926, 6 farms of 119a. 0r. 22p., granted on a freehold basis, and 15 farms of 233a. 2r. 28p., held as permissive occupancies with a view to purchase when set apart for application; in 1927, 69 farms of 1,196 a. 3r. 2p., granted on a freehold basis; 4 farms of 75a. 0r. 23p., held under permissive occupancy, &c., and 32,350 acres of non-irrigable land held under lease other than perpetual lease; in 1928 92 farms of 1,608a. 2 r. 0p., granted on a freehold basis; 2 farms of 47a. 3r. 10p., held under permissive occupancy, &c., and 32,354 acres of non-irrigable land held under lease other than perpetual lease. Particulars similarly excluded for 1929 embrace 93 farms of 1,713 acres granted on a freehold basis; 3 farms of 78 acres held under permissive occupancy; and 32,482 acres of non-irrigable land held under lease other than perpetual lease.

NOTE.—In addition to the farms above in the Murrumbidgee Area in 1926 there were 17,870 acres of irrigable and non-irrigable lands held under perpetual lease; in 1927 18,964 acres were so held, in 1928 18,155 acres, and in 1929 15,310 acres; 3,497 acres were held under permissive occupancy with the view to be taken up under perpetual lease in 1926, 2,108 acres in 1927, 8,192 acres in 1928, and 30,492 acres in 1929. 139,152 acres of "dry area" lands were held under long lease (other than perpetual lease) in 1926, 163,462 acres in 1927, 70,666 acres in 1928, and 58,491 acres in 1929. Four farms of 80 acres and 4 town blocks of 1 acre had also been granted on a freehold basis up to 30th June, 1926, 6 farms of 154a. 1r. 7p., and 15 town blocks of 19a. 2r. 14½p. to 30th June, 1927; and 11 farms of 266a. 3r. 25½p., and 31 town blocks of 32 a. 1 r. 27¾ p. to 30th June, 1928; and 39 town blocks of 36a. 2r. up to 30th June, 1929.

*The returns were collected from holdings over 1 acre in extent on which improvements had been effected, and upon which agricultural or pastoral activities were conducted; in that they covered all lands particulars of which serve a practical purpose. Prior to 1920 many holdings, nearly all from 1 to 5 acres in extent were included, which were not used for agricultural or pastoral purposes.

† Particulars of area cultivated will be found in Table 1 of Section I, Primary Production.

‡ The definition of Unimproved Capital Value and Improved Capital Value will be found on page 320, of Part III, relating to Local Government.

* From the year 1919–20 the returns were collected from holdings over one acre in extent on which improvements had been effected, and upon which agricultural or pastoral activities were conducted; in that they covered all lands, particulars of which serve a practical purpose. In previous years many holdings, nearly all from 1 to 5 acres in extent were included, which were not used for agricultural or pastoral purposes.

Section III.—METEOROLOGY.

The Tables in this Part have been compiled from particulars furnished by the Commonwealth Meteorologist.

No. 94.—Barometric Observations, Sydney, 1929.

Time Ball.—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Standard Time. The Time Ball at Newcastle is controlled by signals from the Sydney Observatory.

Standard Time.—The mean time of the 150th meridian of longitude east of Greenwich, England, is the Standard Time throughout New South Wales, with the exception of the area within the Municipal District of Broken Hill and the Electorate of Sturt, for which the mean time of the 135th meridian of east longitude is adopted.

Position of Sydney Observatory.—Latitude, 33° 51′ 41·1″ south; longitude, 151° 12′ 23·10″ east; altitude, 138 feet.

Month.	Self-registering Barograph, corrected to 32° Fah. and Standard Gravity at Lat. 45°, but not to Mean Sea-level. Height above mean sea level:—138 feet.						Mean Height of Standard Barometer, corrected to 32° Fah. Gravity and Mean Sea-level.

Thermometers.—Up till April, 1917, the thermometers were exposed in a shed 11 feet square, of which the sides were 5 feet 6 inches high, and enclosed to within about 30 inches of the ground with open lattice work. The roof was conical, rising to 13 feet above the ground, and was covered with louvres close enough to keep out rain. From April, 1917, the thermometers have been exposed in a standard Stevenson screen.

No. 105.—Meteorological Conditions, New South Wales, 1929.

Rain storms during 1929 were mainly the result of cyclonic disturbances and, although, generally speaking, the Coast and Tablelands experienced abundant rainfall, a marked shortage occurred in inland districts, and the greater part of the Western pastoral areas suffered another year of drought. Good rains fell early in the year, chiefly in February and at the beginning of April, but the winter was exceptionally dry and cold, more especially over the inland areas. At the end of July, the position was very serious and a total failure of crops was feared. A gratifying break, however, occurred in August and was followed by favourable growing weather during the spring. In many districts crops recovered beyond expectation and, despite one of the driest winters on record, a yield equal to the average was harvested.

Heavy rain occurred on the North Coast in January, but over most of the State the rainfall in this month was much below normal. February marked a break in a long period of rain shortage, most of the State receiving more than normal. Torrential downpours occurred in eastern areas and extensive floods occurred. Useful rain again fell in March and early in April, but from the end of the first week in April till August very dry conditions prevailed, while cold nights with heavy frosts accentuated the adverse conditions.

Splendid rains fell in August, when most districts, with the exception of the far West, received more than normal rainfall. Although the first three weeks of September were dry, another extensive rain storm occurred towards the end of the month, when 1 to 3 inches fell over the wheat areas. In October, abnormal rain fell in eastern areas, when many coastal stations received from 10 to 13 inches. Heavy floods occurred in coastal districts, especially in the Hawkesbury and Nepean basins. Tropical disturbances were frequent in November and resulted in rain throughout the State.

Scattered thunderstorms occurred early in December, but conditions were mainly dry, with periods of intense heat. Tropical influences were, however, greatly in evidence during the last week of the year, and general rain fell over the interior, with many falls of from 1 to 2 inches over the far West and in the southern half of the State.

Broadly speaking, the aggregate rainfall for the year was above average along the Coast, on the Blue Mountains, and on parts of the Central and Southern Tablelands. At many places on the Coast, the year's rainfall exceeded 50 inches, the highest amounts being in the neighbourhood of Manning Heads, Laurieton (110·94 inches) being the greatest for the State. Elsewhere the rainfall was generally well below average, the shortage being most pronounced in the North-west quarter. Many places in this area received less than 5 inches, and in this district the year saw one of the driest on record, in fact, in several instances the rainfall was unprecedently low. The lowest totals were:—Hungerford, 2·30 inches, and Milparinka, 2·37 inches. Among other very low amounts were:—Barringun, 3·01 inches; Louth, 3·36 inches; Bourke, 4·02 inches; Wanaaring, 4·16 inches; and White Cliffs, 4·34 inches.

An outstanding feature of the year was the number of closed curved or cyclonic disturbances, one or more of this type of depression occurring in every month. On many occasions, strong winds to gales along the Coast caused delay and damage to shipping, the most severe disturbance occurring in the second week of September, when the coastal steamer "Pappinbarra" and many smaller craft were lost and considerable damage caused on the land.

Associated with these disturbances, floodings occurred in many coastal rivers, the most serious were those in February and October.

During February most of the coastal areas were affected by floods. In the Macleay, Hastings, and Manning river basins the floods were said to be the highest on record. Four lives were lost, and the damage sustained amounted to hundreds of thousands of pounds, several towns being inundated.

In October exceptionally heavy flooding occurred in the Hawkesbury and Nepean Rivers, two lives were lost, and the damage was estimated at £100,000. All traffic was suspended for several days, roads, bridges and railway lines being submerged.

Other floods occurred during March in the Tweed and Richmond Rivers, when parts of Lismore and Murwillumbah were inundated.

Associated with thunderstorms during the year many severe local hail and wind storms occurred chiefly in the warmer months. These storms were most frequent in March and November.

Tornadic blows were experienced at Grafton in January, at Alumny Creek in November, and at Burren Junction in December. In each case the squall was of short duration, but caused considerable damage to buildings.

"Fireballs" were reported from Woolwich in October, and from Camperdown in November.

Very severe hailstorms occurred in March, October and November, causing great damage to fruit and vegetable crops and, in some instances, to cereal crops. Stones as large as "hen eggs" were reported from Campsie and Moss Vale. In the metropolitan area, a severe storm caused much damage to property in January, and in November during an exceptional thunderstorm, the lives of three children were lost in storm waters, and damage was caused by lightning and hail.

In December severe thunderstorms with local tornadic blows occurred in the Clarence River Valley, causing damage to buildings by the strong wind and lightning. Several cases of cattle being killed by lightning were reported. In December an exceptionally heavy rainstorm occurred in the Cootamundra district, 5 inches of rain fell in 4½ hours, low-lying areas were flooded and washaways occurred on the railway.

Intense heat was experienced in January, especially in the first half of the month, when temperature registrations over 100 degrees were numerous and, on occasions, exceeding 110 degrees at many inland stations.

No. 105.—Meteorological Conditions, New South Wales, 1929—*continued.*

Many and extensive bush fires accompanied the abnormal heat. In February, although the heat was less intense, very humid conditions prevailed. Heat-wave conditions also prevailed in the first half of December, with exceptionally humid conditions.

A remarkable cold change occurred as the result of a cyclonic disturbance in April, frosts being experienced on the Tablelands and snow on the Highlands.

During the winter months, days were warmer than normal, but nights were cold with frosts, both numerous and severe, resulting in considerable losses of stock.

In the metropolitan area one of the heaviest frosts on record occurred in July, and again in August, when the minimum temperatures were the coldest on record for so late in the year. Late frosts occurred in October and November and caused considerable damage to crops.

Falls of snow were numerous on the Highlands, the first occurring in April and the last in December.

A most notable snowstorm occurred in August, remarkable both for its intensity and the area affected. Practically all the Highlands were covered, and the snow extended over the plains as far west as Yalgogrin. The heaviest snowfalls reported for twenty-nine years occurred on the Blue Mountains in September. At Lithgow 18 inches of snow was measured.

The highest temperature reported during the year was 116 degrees at White Cliffs on the 3rd, 6th and 7th of January, and the lowest zero at Kiandra on the 25th July. On 2nd September the temperature at Kiandra fell to 6 degrees, the lowest on record in New South Wales for that month.

The drought conditions prevailing in the interior of the continent, accompanied by strong westerly wind circulation, caused an exceptionally severe duststorm throughout the State on 1st September. In many districts visibility was reduced to a few yards, disorganising traffic; and the dust extended many miles out to sea, hampering shipping.

At Sydney the rain for the year totalled 5,790 points (1,053 points above normal), the highest shade temperature was 106·2 degrees on 9th January, and the lowest 37·2 degrees on 18th July, the mean of the maxima or day temperatures was 70·5 degrees (0·3 degrees above normal), and the mean of the minima, or night temperatures was 56·0 degrees (0·2 degrees below normal).

The greatest wind velocity was 63 miles per hour from south on 4th January.

The following is a résumé of the weather conditions prevailing in each month of the year:—

January.—Except in North Coastal areas, where heavy falls occurred, the rainfall in New South Wales during January was light, and much below normal.

Intense heat was experienced over most of the State, especially in the first half of the month. Extensive bush fires occurred in many parts, and great losses were sustained.

The highest temperature recorded was 116 degrees at White Cliffs, and the lowest 30 degrees at Kiandra.

February.—February marked a break in a long period of rain shortage. Except in the far Western Divisions the rainfall was above normal. Very heavy falls occurred in coastal districts, where most stations received over 10 inches. Between Coff's Harbour and Bulladelah the month's totals exceeded 10 inches, ranging up to 46 inches at Laurieton. Torrential downpours fell in these areas, causing floods in all coastal rivers, which were most severe in the Macleay, Hastings, and Manning Rivers, where one of the heaviest floods on record occurred.

Although not as hot as the previous month, conditions were more humid. The highest temperature was 107 degrees at Wilcannia, and the lowest 24 degrees at Kiandra.

A moderate cyclone caused strong south-east winds to gales on the South Coast.

March.—Supplementing the heavier rain of the previous month, useful rain fell over most of the State during March, the most favoured areas being the North Coast and parts of the Central West and South-west. The far West, however, experienced another month of rain shortage.

Early in the month a severe cyclone resulted in very rough weather and southerly gales on the North Coast, accompanied by heavy and flood rains.

Severe local thunderstorms were experienced at other times, the most noteworthy being at Sydney and suburbs, and at a number of southern stations.

The highest temperature was 109 degrees at Tibooburra, and the lowest 23 degrees at Kiandra.

April.—Very good rains fell over the greater part of the State during the first few days of April, but, although showers were frequent in coastal districts, the remainder of the month was dry over all inland areas. With the exception of severa restricted areas the month was again dry in the far Western Divisions.

Two cyclonic disturbances affected the coast, the first at the beginning, and the second at the end of the month.

The highest temperature reported was 94 degrees at Wentworth, and the lowest 11 degrees at Kiandra.

May.—Although portions of the coastal districts received good rains, May was marked by a pronounced shortage of rain over most of New South Wales.

Severe cyclonic disturbances experienced over the Tasman Sea caused very rough weather and southerly gales along the New South Wales coastline.

The highest temperature was 86 degrees at White Cliffs, and the lowest 19 degrees at Kiandra. Frosts were of frequent occurrence.

No. 105.—Meteorological Conditions, New South Wales, 1929—*continued.*

June.—As in the previous month, the rainfall in June was mainly confined to the coast, being heavy on the North Coast. Inland the rains were light and much below normal. Severe cyclonic storms were experienced at the beginning and end of the month, with rough coastal weather and strong southerly gales, which hampered shipping. Frosts were numerous and severe, especially in the second half of the month, and losses of stock from cold were reported. The highest temperature was 83 degrees at Grafton, and the lowest 5 degrees at Kiandra.

July.—July was marked by a serious deficiency of rainfall. In all districts, monthly aggregates were far below normal and, in parts of the far West, no rain at all was recorded.

Southern storms were frequent over the Tasman Sea, where rough weather prevailed throughout the month. A cyclonic disturbance caused southerly gales and rough weather on the New South Wales coast.

The frequency and severity of frosts were a feature of the month. The highest temperature reported was 80 degrees at Grafton, and the lowest zero at Kiandra.

August.—A gratifying feature during August was a break in the prevailing dry spell. Except in the far West, where rains were light, all districts benefited by substantial falls, which were mainly due to a cyclonic disturbance in the second week of the month. Torrential downpours occurred at places on the South Coast, causing local floodings. Associated with another intense cyclone over the Tasman Sea, a remarkable cold snap was experienced over Eastern Australia. One of the most extensive snowstorms on record occurred in New South Wales, covering the whole of the Tablelands, and extending as far West as Yalgogrin.

The cyclones caused rough coastal weather, with southerly gales. Many severe frosts and some dense fogs occurred. The highest temperature was 90 degrees at Bourke, and the lowest 2 degrees at Kiandra.

September.—Dry and unfavourable weather for crops was experienced over inland districts during the early part of September, but the situation was relieved in the last week by one of the best and most general rainstorms of the year, from 1 to 3 inches falling over the wheat belt. A very severe cyclone developed off the South Coast, and gradually worked northwards. Very heavy coastal rain ensued, with torrential downpours in the Hunter and Manning districts. Some floods occurred, and one life was lost. The cyclone caused very rough coastal weather, and resulted in the loss of many small craft and of the coastal steamer "Pappinbarra." Very heavy falls of snow occurred on the highlands, the fall on the Blue Mountains being the heaviest for twenty-nine years, 18 inches of snow were measured at Lithgow.

The highest temperature was 93 degrees at Bourke, and the lowest 6 degrees at Kiandra, the latter being the lowest on record in New South Wales for September.

October.—Little or no rain fell in the pastoral country in the west and north-west of New South Wales during October, but beneficial falls occurred over all agricultural areas. Due to a persistent tropical tongue-like depression abnormal rain fell in the eastern areas; many stations registered from 10 to 13 inches. Heavy floods occurred in coastal areas, being especially severe in the Hawkesbury and Nepean Rivers. Several lives were lost, and the damage to property was estimated as between £50,000 and £100,000.

Warm spells were experienced early in the month, but generally the month was much cooler than normal. Towards the end of the month severe frosts occurred, causing damage to crops, and strong easterly gales blew on the coast, due to a cyclonic disturbance.

The highest temperature was 104 degrees at Bourke, and the lowest 17 degrees at Kosciusko.

November.—Practically the whole of the State benefited by useful rain in November, but registrations were variable and mostly under 1 inch in the Western Divisions. Tropical influences were very active in the second and third weeks, when local thunder and hailstorms were numerous, causing damage to crops. A tornadic storm occurred at Alumny Creek, near Grafton, and there was an exceptionally heavy thunderstorm in the metropolitan area.

Intense heat was experienced in the first week, but this was followed by cold snaps, accompanied by late heavy frosts, and considerable damage done to wheat and other crops.

The highest temperature reported was 111 degrees at Wilcannia, and the lowest 24 degrees at Kiandra.

December.—The outstanding feature in December was widespread and general rain in the last week of the month. The best rain occurred in the central and southern inland districts, but gratifying falls occurred in parts of the dry areas in the far West, where more rain is required.

Exceptionally humid weather characterised this period, but the remainder of the month was mainly dry and warm to hot, broken by frequent cool changes of short duration. Duststorms were both frequent and numerous. Tornadic storms did much damage in the Clarence River Valley. An exceptionally heavy rainstorm occurred at Cootamundra, about 5 inches falling in 4½ hours; floods occurred in the district and washaways on the railway.

The highest temperature was 115 degrees at White Cliffs, and the lowest 26 degrees at Kiandra.

No. 106.—Monthly Rainfall, 1910-1929—Representative Stations in Divisions.

NOTE.—For monthly rainfalls at Representative Stations from the earliest date available in each case to 1906 see Statistical Register, 1924-25. In table No. 108 the average annual rainfall, over a period of years, is given at a number of stations.

NOTE.—(–) Denotes no record, and (...) no rainfall during the month.
